"add value to metal"

[www.edya.com.tr](http://www.edya.com.tr)

# ABOUT US

Edya company was founded on 2010, In the beginning it was focused on electrical and electrical components for hoods. After 2016 the product range contained handles, knobs and frames. Beside that cable production and component supplying is going on.

## MISSION

Our mission is to supply components for household products. Our focus is to maintain our customer quality products with best lead times, also supply parts for our customers with their benefit of with min inventory value.

## VISION

To be the best partner and product supplier for household product manufacturers.
